

WINDOW CUTTER

Adjustable Depth Stop

This lightweight pneumatically powered hand held circular cutter is ideal for cutting windows in Ductile Iron or Steel pipes which have previously been inserted with a PE pipe.

The fully enclosed 100mm diameter blade can cut to a depth of 25mm. The cutter features an adjustable depth stop, which allows the depth of cut to be accurately controlled. Making it suitable for use on both Slip Lined and Close Fit Lined pipes.

The saw is supplied with an air filter / lubricator assembly and 3 metre long ½" hose all housed in a strong metal box.

Replacement blades are readily available.

Both Hire and Contract Service options are available with this equipment.

For larger cut outs please refer to our **Longitudinal Pipe Cutter** information sheet, and for cutting non-inserted pipes see our **Pneumatic Hacksaw** sheet.

MAJOR FEATURES

- Adjustable Depth Stop
- Simple to use
- Cost Effective
- Lightweight

The company follow a policy of continuous product development and as such reserves the right to make alterations to equipment and techniques without prior notice.
